When selecting plumbing products for foodservice environments, there are many things to consider. Elkay has four main concerns for the sinks, faucets, water coolers and drinking fountains. Elkay: discover the professionals choice.

Sinks
Elkay uses only the highest quality, 300 series stainless steel in various gauges for long lasting performance and durability in kitchens, cafeterias, lavatories, bar and service areas. Elkay sinks do not crack, chip or discolor, offer superior cleanliness and are easy to sanitize, making them the ideal choice for foodservice environments.

Faucets
There is an Elkay commercial faucet for every Elkay sink, each crafted from the best materials and precision engineered for maximum performance and years of trouble-free service. Our extensive faucet offering and ability to meet a wide range of requirements is enhanced with interchangeable spouts, handles and aerators, for easy to configure faucets.

Custom Solutions
- Capabilities for combining custom stainless steel, solid surface, and porcelain solutions.
